

Daniel Tiger Goes to the Hospital Family Activity Pages

Daniel, Mom, and Dad Tiger arrive at the hospital on Trolley. Daniel thinks the building is really big.

When Daniel gets to his room inside the hospital, Nurse Miller asks him to choose which hospital gown he wants to wear. Which one would you pick?

Mom Tiger helps Daniel change out of his sweater, shoes, and watch and get into the gown with the duckies.

Daniel learns how the hospital bed can move up and down and that it has wheels. He says it is different from his Trolley bed at home. What does your bed at home look like?

Can you find the hospital bracelet Nurse Miller put on Daniel's wrist?

To get ready for the operation, Nurse Miller measures Daniel's temperature. Do you remember a time when you had your temperature checked?

Can you find Tigey in this picture? Do you have a favorite stuffie like Tigey? How do you think Tigey helps Daniel?

Nurse Miller uses his stethoscope to listen to Daniel's heart and lungs. He asks Daniel to take a deep breath in and a deep breath out.

Now you try. Take a deep breath in... and... out.

Next, Nurse Miller wraps a band around Daniel's arm and says, "When I squeeze this ball, your arm will get a little hug."

Daniel feels the tight hug on his arm. Mom Tiger gives Daniel a squeeze hug and reminds him that he's a brave patient.

Give someone you love a squeeze hug.

Dr. Lee comes into Daniel's room to meet the Tiger family. She tells them about the mask that Daniel will wear during the operation and about the things that will happen next.

Mom, Dad, and Dr. Lee sing, "We are here to help you get better."

When the operation is over, Daniel rests in his room. Later he changes out of his hospital gown and back into his sweater, shoes, and watch.

Daniel is feeling much better now. The Tiger family hops onto Trolley to go home.

It helped Daniel to ask questions about the hospital and operation. Do you have any questions?

WE ARE HERE TO HELP YOU GET BETTER

When we do something new,
Let's talk about what we'll do

Welcome to the hospital
The doctor will see you soon

We know that it is big and new
But there are lots of people here for you

We are here to help you get better

I can show you to your hospital room

Change into your cozy gown

And jump up on this big soft bed
It goes up, and it goes down

We are here to help you get better

If you ever feel unsure
We can talk about what we'll do

And remember that we do what we do
Because we care about you

We are here to help you get better
We are here to help you get better
